Best Practice-1 Title: Entrepreneurship Development

Objectives of the Practice:

- The institute is exploring emerging technologies, such as GIS through a training program by Dr. Salguna of AISSRG and sustainable building practices by hosting workshops in the campus.
- Institutional collaboration with Fire safety association of India through Institutional life membership through professional training in fire safety assessment and perform as a specialist or expert.
- Students and faculties were encouraged Universal Design for the Built Environment organized by Ethos Arcause (Architects for a cause) UDITA
- The institute engages with industry experts for specialized services by inviting guest sessions such as Schindler for lift & escalators, AR VR by Ajna lens that provide insight on use of advanced technologies for enhancing professional presentations as well as client engagement.
- Expert talk on entrepreneurship and innovation by industry experts such as Prof. Sankalp Pratap followed by interaction with student representation of IIT-B.

Best Practice-2 Title: Promotion of MOOC courses

Objectives of the Practice:

- MOOCs provide students access to high-quality, up-to-date content from global experts, enhancing their knowledge beyond the standard curriculum. The architecture curriculum today requires interdisciplinary learning and MOOC courses allows flexibility in learning, enabling students to explore niche topics, such as sustainable design, new technologies, or advanced software tools, that may not be covered in depth in traditional courses.
- The institute has acquired the status of NPTEL local chapter through which it is promoting various courses to the students through electives. The students are encouraged to register and pursue self-paced learning and also appear for the certified test.
